

Yorùbá: 50-item variation pilot

Target: Standard Yorùbá plus one explicitly named regional variety

This is an elicitation and validation packet, not a test of the speaker. Write what a real teacher, parent, or tutor from your community would naturally say to one child.

Speaker and reviewer information

Name or participant code	
Home town / community	
Named language variety	
Other languages regularly used	
Role (teacher / parent / other)	
Age group taught or cared for	
Reviewer name or code	
Date	

Instructions

1. State your town/community and the name you use for your Yorùbá variety. Do not write only “Yorùbá dialect.”
2. For each situation, first write a correct Standard Yorùbá teacher utterance, then how you would naturally say it in your regional variety.
3. Use correct *ṣ*, *ẹ*, *o* and tone marks. High tone uses an acute accent, low tone a grave accent, and mid tone is normally unmarked.
4. Preserve the teaching purpose, singular/plural audience, and any literal example word, name, letter, sound, or number.
5. Add English only where it is natural in your classroom community; do not force code-switching.
6. If the Standard and regional versions are identical, write “same” in the regional field. Explain uncertain tone, spelling, or usage in Notes.

Consent note: do not include a child's real name, phone number, address, school, or other identifying information. Participation should be voluntary, and project consent procedures must be followed before collecting recordings.

01. instr-start-beginner-001 | Category: instruction | Level: beginner | Audience: child | Maximum: 12 words

Situation: Ask the child to look at the letter shown and say its sound.

Standard Yorùbá version	
Named regional variety	
English switch, if natural
